DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 - 4, drawn to a composition.

Group II, claims 5 and 11, drawn to a method for making an implant.

Group III, claims 7 - 8, drawn to a method for making a composition.

Group IV, claims 6 and 12, drawn to a method for making an autologous implant.

Group V, claims 9 and 13, drawn to a method for delivering a factor.

Group VI, claims 10 and 14, drawn to a method for making a graft.

2. The inventions listed as Groups I - VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions of the groups are drawn to various methods (uses) involving a biocompatible material, however such materials are known in the art and do not contribute over the prior art. Therefore, the groups do not related as having a special technical feature.

3. A telephone call was made to Benoit Castel on July 28, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1651

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
